

KLOVE radio is an important part of a positive, life affirming ministry in my community of 45,000.

If KLOVE were displaced by an LPFM broadcaster, we would lose our major provider of contemporary Christian music and broadcasting, with a detrimental effect on the community as a whole. We need this positive place on the radio dial to help us minister to adults and youth alike (especially in view of the growing gang influence in the community).

Obviously, providing a source of listener-supported Christian music ministry is in the public interest, as it equips many of us to minister to the needs of the community.

Please do not let KLOVE be replaced by an LPFM broadcaster.
